

GOULD AND HARRIMAN AT WAR

Financial Giants Getting Wider Apart in Fight for Supremacy.

UNION PACIFIC BONE OF CONTENTION

Reports Say Rockefeller Has Joined Gould in Effort to Force Large Percentage of Holdings in Overland.

Efforts to conceal the fact of the difference between the Gould and Harriman financial interests are becoming more and more difficult. Combined with Gould in this antagonism are the Rockefeller interests, and the situation has been so acute that evidences of the struggle are disturbing the surface of the financial circles in Wall street.

Several times of late the market has broken sharply without any apparent reason, while Union Pacific displayed extraordinary strength, recalling the first stage of the Northern Pacific corner in 1901. It is asserted that differences of opinion which have gradually been widening between the two great camps of capitalists are responsible for the trouble.

While the Burlington is not ready to announce any change in the coal rate, the situation is not regarded as settled. Considerable correspondence is passing between the local offices and Chicago, showing the situation here is still disturbed. It was expected that when D. O. Ives, general freight agent, returned from Chicago he would have some news to announce, but such information has not been made.

RAILWAY TAX CASE A PUZZLE

No Decision from Supreme Court Causes Expression of Disappointment by Wright.

City Attorney Wright expresses disappointment in the fact that the supreme court has not handed down a decision in the railway tax cases with the convening for the present term. "The matter has been dragging to an aggravating degree," says the attorney, "but being in the hands of the court, it is not within our power to do anything to hasten a decision. It is just barely possible that the best thing to do would be to rearrange the case and resubmit it. I confess I am puzzled as to just what to do."

CHURCH IN GOOD CONDITION

African Methodist Shows Up Prosperous at Conference Embracing Nebraska and Kansas.

Thursday's session of the African Methodist Episcopal conference for the district of Kansas and Nebraska was graced with an increased attendance, making a total membership of the conference now about ninety. Rev. J. C. Owens of the Colorado conference was introduced and welcomed. Almost the whole forenoon was taken up with the reports of the presiding elders of the various districts. These included reports by Rev. G. C. Clark of the Parsons (Kan.) district, Rev. J. R. Ransom of the Fort Scott (Kan.) district, Rev. J. W. Braxton of the Topeka (Kan.) district and others.

Their financial affairs were generally good. Bishop Grant then introduced Theodore Glover, as a lay delegate, and he was admitted to sit at the bar of the conference. Rev. Eixenson of St. Paul, a member of the St. Paul Methodist Episcopal conference, was introduced by Bishop Grant. He delivered a short address, in which he paid a high tribute to the scholarly attainments and Christian character of Bishop Grant. Rev. Mr. Eixenson is connected with the American Bible society, and at the close of his address a collection was taken up for society purposes.

Mortgage on Auditorium. The mortgage of \$20,000 given by the First Trust and Surety company of Chicago on the Omaha Auditorium was filed yesterday in the office of register of deeds. It involves four lots and the building, is made at 5 1/2 per cent, and binds the company to keep the building insured for \$100,000. The name of Fred A. DELAY TO BE INVESTIGATED

Tardiness in Completing Jackson Street Engine House Calls for Official Inquiry.

The investigation into the delay in completing the new \$25,000 fire engine house at Eleventh and Jackson streets was ordered by the council because progress on the interior finishings and paints had been entirely stopped. The building was begun in August, 1903, the contract specifying that it should be turned over to the city for use February 1, 1904. Although a large bill of extras was entered and allowed the contractor to a degree that has induced the council to order an inquiry.

WRIGHT CRITICIZES PLAN

City Attorney Thinks Dr. Miller's Proposition on Water Works Matter is Wrong.

Regarding the proposal of Dr. George L. Miller to abandon the pending appraisal and acquisition of the water works and to endeavor to have the water company raise the city from compulsory purchase imposed by the Howell-Gilbert act, City Attorney Wright says: "In any event I think it would be best to wait until the report of the appraisers is made before taking action along the lines suggested by Dr. Miller. By doing this we will be able to ascertain exactly how much the water system will cost. It would be very poor policy to drop the matter now, just when we are on the verge of obtaining the appraisal which we have been trying to bring about for a year and a half. After the price is named and we know how much we will have to pay, would be a far better time to consider Dr. Miller's arguments than now. Personally, I think we will be able to pay the system now cheaper than at any future time. The doctor, I think, has become unduly alarmed and it must be remembered that he has another interest at heart—that of the water power project."

It has been reported at police headquarters that thieves entered the Kellom school and stole four bunches of 1897-1898 pocket knives, sixteen pitch pipes and a bunch of pencils. Some of the police officers advance the theory that the culprits in the case are musically inclined, as with the knives, keys and pencils it is thought they could open a studio. The United States of America, for the use and benefit of First John Hinson of Omaha, has sued Benjamin J. Jobst and the National Surety company in the district court of this county.
